INDEPENDENT AUDITOR'S REPORT**To the General Assembly of VBT Yazılım A.Ş.,****A. Independent Audit of Consolidated Financial Statements****1. Opinion**

VBT Yazılım A.Ş. (the Company) and its subsidiaries (the Group) for the fiscal period ending on the same date as the consolidated financial statement dated 31 December 2022; we have audited the financial statements that consist of the footnotes of the financial statements including consolidated profit or loss and other comprehensive income statement, consolidated statement of changes in equity and consolidated cash flow statement and summary of significant accounting policies.

In our opinion, the Group's consolidated financial statements as of December 31, 2022, offer a fair manner with appropriate as all important aspects in accordance with Turkish Financial Reporting Standards(TFRS) of the consolidated financial condition and the same date as the end of the fiscal year of consolidated financial performance and its consolidated cash flows.

2. The Base of Opinion

In our independent audit we did the Independent Auditing Standards published by the Capital Markets Board and the standards issued by the Public Oversight, Accounting and Auditing Standards Authority was carried out in accordance with the Independent Auditing Standards which are a part of Turkey Auditing Standards. Our responsibilities under these Standards are explained in detail in the section entitled "Independent Auditor's Responsibilities for Independent Audit of Consolidated Financial Statements". We declare that we are independent from the Community in accordance with the Code of Ethics for Independent Auditors published by the Public Oversight Board (Code of Ethics) and the ethical provisions contained in the relevant legislation with independent auditing of the consolidated financial statements. Ethical Rules and other ethical responsibilities under the legislation have also been fulfilled by us. We believe that the independent audit evidence we obtain during the independent audit is sufficient and appropriate basis for the establishment of our opinion.

3. Key Audit Topics

The key audit issues, according to our professional judgment, are those that are most important in the independent audit of the consolidated financial statements in the current period. The key audit issues are discussed in the context of the independent audit of the consolidated financial statements as a whole and in the formation of our view of the consolidated financial statements, and we do not give a separate opinion on these matters.

Key Audit Matters

| Revenue Recognition | How the matter is addressed in the Audit |
|--|---|
| The Group's revenues mainly consist of business applications, system integrator and business partner, hardware, data backup and storage hardware, project management, software solutions and consultancy revenues. | <p>In addition to our existing audit procedures, the following audit procedures have been applied for recording of revenue:</p> <ul style="list-style-type: none">- The audit procedures we have implemented consist of understanding the internal controls and process related to the recording of revenues, analytical reviews and detailed tests.- While establishing the procedures for our detailed tests, sales were separated on the basis of software project revenues and service groups, and different tests were applied for each group.- Within the scope of substantive verification procedures, the management's evaluation |

| | |
|---|--|
| <p>The amount of revenue in the financial statements, the complexity of applications regarding accounting standards in the recognition of revenue from development activities; Due to the fact that the recognition of revenue related to private software project revenues and service transactions has different characteristics in accordance with the "IFRS 15 Revenue from Customer Contracts" standard, timely and accurate recognition and recording of revenue has been considered by us as a key audit subject.</p> <p>Explanations of the Group on accounting policies and revenue amounts are included in Note 2.4.46 and Note 32.</p> | <p>process was examined, the contracts, invoices and payments examined with the selected samples were checked, analytical procedures were applied, and the historical accuracy of the management's estimates was evaluated by comparing the estimates made in the previous periods with the realizations.</p> <ul style="list-style-type: none"> - By examining the selected customer contracts, it was negotiated with the management whether performance obligations should be fulfilled over time or at a certain moment, and it was tested that the revenue was recognized at the right amount in the right reporting period with the supporting documents received. - In order to verify product and software sales revenues, it was checked that the revenue was recognized as revenue in the correct amount, exactly and in the correct period, by testing a sample set of which the book records and supporting documents subject to these records were selected. -Revenues from maintenance support services were also controlled by taking into account the periodicity principle, depending on the contractual principles and predominantly over the service provided. |
| <p>Testing of Internally generated intangible assets / Capitalized Development Costs</p> | <p>How the matter is addressed in the Audit</p> |
| <p>The Group capitalizes on the expenditures it has made in the software development phase in scope of development activities for the projects completed technically, ready for use and believed to provide cash flow in the future in accordance with the clarifications in TAS 38 "Intangible Assets". (Footnote 2.4.17)</p> <p>Development costs consist of the fees calculated according to the time when the personnel working directly in the establishment of the asset are employed in the related project and the costs directly related to the creation of the intangible asset.</p> <p>Capitalization calculations and amortization are determined as key issues due to their significant amounts in terms of financial statements and that they include management estimates thereof.</p> | <p>In addition to our existing audit procedures, the following procedures have been applied as to the auditing of capitalized development costs:</p> <ul style="list-style-type: none"> - The study was conducted to differentiate the research expenses and development expenses and the status of writing off the research expenses were checked. <p>Whether the projects evaluated in scope of development activity meets the criteria of capitalization specified in the TAS 38 "Intangible Assets" or not was discussed at a meeting held with the management,</p> <ul style="list-style-type: none"> - In this context, the estimations and projected redemption periods of the future economic benefits of the projects were evaluated with the management. - Personnel costs related to projects have been tested by means of taking down the balances of Project-based expenditure types related to capitalized costs. - The contents of other expenses directly related to the capitalized development costs other than personnel costs were queried and the allocation keys were controlled by recalculation method. |

4. Responsibilities of the Administrative and Supervisory Officers on Consolidated Financial Statements

The group management; is responsible for the internal control it deems necessary to prepare it so that it does not contain significant error caused by error or fraud, the preparation of consolidated financial statements in accordance with Turkey Accounting Standards and from its presentation in a reasonable way.

Management when preparing consolidated financial statements is in the responsibility of the Group to use the continuity principle as long as there is no obligation, from the assessment of the ability of the Group to maintain its continuity, for clarifying the points of continuity if necessary, for liquidation of the community or for intention to terminate commercial activity.

Those responsible for top management are responsible for overseeing the Group's financial reporting process.

5.Independent Auditor's Responsibilities for Independent Audit of Consolidated Financial Statements

In an independent audit, the responsibilities of independent auditors like ours are:

Our aim is to obtain reasonable assurance as to whether the financial statements as a whole contain significant errors caused by errors or fraud, and to prepare an independent auditor's report that includes our observations. Reasonable assurance as a result of an independent audit carried out in accordance with the Independent Auditing Standards (IAS); is a high level of assurance, but does not always guarantee that an important mistake that exists will always be detected. Errors can be due to errors or tricks. These inaccuracies are considered significant if the mistakes are reasonably expected to affect the economic decisions that financial statement users will receive in the context of a table, alone or collectively.

By force of an independent audit carried out in accordance with the Independent Auditing Standards(IAS) published by the Capital Markets Board, we use our professional judgment during the independent audit and we continue our professional skepticism.

We also:

Risks of "major mistakes" originating from errors or fraud in the consolidated financial statements are identified and evaluated; audit procedures that respond to these risks are designed and implemented, and sufficient and appropriate audit evidence is obtained to provide a basis for the audit.(Since trick has fraud, intentional negligence, untrue declaration or internal control violation, the risk of not detecting an important fallacy of falsity is higher than the risk of not detecting an important mistake.)

-Internal control is not evaluated with the aim to give an opinion on the effectiveness of the Group's internal control, but it is evaluated on the audit to design appropriate audit procedures.

- It is evaluated whether the accounting estimates made by the appropriateness of the accounting policies used by the management and the related disclosures are reasonable or not.

-Based on the audit evidence obtained, it is concluded that there is a significant uncertainty regarding the event or circumstances that could cause serious doubt as to the ability of the Group to maintain its continuity and the appropriateness of the management using the continuity of the management. If we reach a conclusion that there is a significant ambiguity, we should draw attention to the relevant disclosures in the Consolidated Financial Statements, or we should give any opinion other than a positive opinion if these disclosures are inadequate. The results we have are based on the audit evidence obtained until the date of the independent auditor's report. However, future events or circumstances may end the continuity of the Group.

-The Consolidated Financial Statements reflect the general presentation, structure and content of the financial statements, including the disclosures, and whether these statements reflect the underlying transactions and events in a manner that will provide a sound presentation.

-Adequate and appropriate audit evidence is obtained about the financial information about the entities in the community or business segments in order to give an opinion on the consolidated financial statements. We are responsible in the guidance, observation and execution of the Group audit. We are responsible alone by the audit opinion mentioned.

- Among other things, we report to the top management the planned coverage and timing of the independent audit, as well as any significant audit findings, including any significant internal control deficiencies we identified during the audit.

We have informed top management that we have complied with the ethical provisions regarding independence. We have informed top management all relations and other matters that may be considered to have an effect on independence and, if any, relevant measures.

Among the issues that are reported to top management, we have identified key issues that are most important in the independent audit of the consolidated financial statements. Where the legislation does not allow public disclosure of the matter, or in exceptional circumstances where it is reasonably expected that the negative consequences of public disclosure will exceed public interest, we may decide that the relevant matter should not be mentioned in our independent audit report.

B. Other liabilities arising from the legislation

1. The report dated March 7, 2023, which we prepared in accordance with the fourth paragraph of article 398 of the Turkish Commercial Code, on the early detection system of the Group's risk appetite and its applications, was presented to the Board of Directors of the Company.

2. In accordance with the fourth paragraph of Article 402 of the Turkish Commercial Code, No significant issue was found in the accounting period of the Group for the period between 1 January 2022 and 31 December 2022 as to the bookkeeping method and the fact that the financial statements do not conform to the provisions of the law and the financial statements of the main contract.

3. In accordance with the fourth paragraph of Article 402 of the Turkish Commercial Code, The Board of Directors has made the required explanations within the scope of the audit and given the documents we requested.

AYŞE KARAUSTA is the auditor responsible for carrying out this independent audit.

Istanbul, 7 March 2023

AYŞE KARAUSTA
Responsible auditor

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

NOTE 2-GUIDELINES ON SUBMISSION OF FINANCIAL STATEMENTS

2.1. Basic Guidelines on Submission of Financial Statements and Declaration of Conformity to the Turkish Accounting Standard

The Company keeps and prepares its statutory books and financial statements in accordance with the Turkish Trade Law and Uniform Account Plan and principles issued by Ministry of Finance of Turkey.

The accompanying financial statements are prepared in accordance with the Taxonomy of TAS in 2016 and the provision "Notice on Guidelines for Financial Reporting In Capital Market" ("Notice"), Seri II, No.14.1 of the Capital Market Board ("CMB") as published in the copy dated 13.06.2013 and numbered 28676 of the Official Gazette and based on the Turkish Accounting Standards / Turkish Financial Reporting Standards ("TAS"/IFRS), which are put into force by the Public Oversight Accounting and Auditing Standards Authority ("POA") pursuant to article 5 of the Notice, and its relevant appendices and comments.

The financial statements and notes of the Group are presented in accordance with the formats announced by the CMB with the announcement dated June 7, 2013 and by including the required information.

The financial statements of the Group are presented in accordance with the TAS taxonomy published by the POA with the decision number 30 on June 2, 2016 and subsequently announced to the public on April 15, 2019 together with the changes in IFRS-15 Revenue from Customer Contracts and IFRS-16 Leasing standards.

The Group's financial statements prepared in accordance with the TAS/IFRS accepted by the Public Oversight Agency were approved by the Board of Directors on March 7, 2023. The General Assembly has the power to change the financial statements after the publication.

Reporting Currency

The financial statements of the Group are presented in the currency (functional currency) that is valid in the basic economic environment in which its. The financial position of the Group and the results of its operations are expressed in TL, which is the functional currency of the Group and the presentation currency for the financial statements.

Adjustment of Financial Statements in High Inflation Periods

According to TAS 29 Financial Reporting Standard in Hyperinflationary Economies, enterprises whose functional currency is the currency of a hyperinflationary economy report their consolidated financial statements according to the purchasing power of money at the end of the reporting period. TAS 29 identifies features that may indicate an economy is a hyperinflationary economy, and it is recommended that businesses start implementing the Standard at the same time. In the statement made by the Public Oversight Accounting and Standards Authority (KGK) on January 20, 2022, it was stated that there is no need for enterprises to make any adjustments in their consolidated financial statements for 2022 within the scope of TAS 29. However, in the consolidated financial statements for the accounting period ending on 31 December 2022, no explanation has been made whether or not to make adjustments to the financial statements within the scope of TAS 29. In this context, since there is no consensus on the implementation of inflation accounting across the country and the POA is expected to postpone the application of TAS 29, no inflation adjustment was made according to TAS 29 while preparing the consolidated financial statements as of December 31, 2022, in order to ensure comparability.

Comparative Information

In order to make financial condition and performance trends eligible to determine, the financial statements of the company are prepared comparatively with the previous period. Comparative information are reclassified, if deemed necessary, in order to ensure compliance with the presentation of financial statements of current period.

Transactions in Foreign Currency

The Group considers the relevant exchange rates valid at the transaction date, while it converts any transactions conducted in foreign currency, and their balances to Turkish Lira. Monetary assets and liabilities in foreign currency are assessed in exchange rate announced by the Turkish Central Bank at the balance sheet date. Any exchange difference incomes and expenses arisen from conversion of any transactions in foreign currency to Turkish Lira or expression of monetary items are reflected to the income/ (expense) statement in the respective period.

Offsetting – Deduction

The financial assets and liabilities are shown as net values, where any necessary legal rights are available, and it is intended to assess such assets and liabilities as net values, or the assets and liabilities are obtained and fulfilled simultaneously.

Assumption on Going Concern

The financial statements are prepared on the going concern basis by assuming that the Group shall get benefit from assets and perform its obligations within next year and in the ordinary course of its business activities.

2.2. Changes in Accounting Policies

Accounting policy changes resulting from the first application of a new standard are applied retrospectively or prospectively in accordance with the transition provisions, if any. Changes without any transition requirement, optional significant changes in accounting policies or detected accounting errors are applied retrospectively and the financial statements of the previous period are restated. The accounting policies applied in the comparative financial statements of the Group are the same.

In order to comply with the presentation of the current period condensed consolidated financial statements, comparative information is reclassified when necessary and significant differences are disclosed.

2.3. Changes and Errors in Accounting Estimates

Accounting estimates are based on reliable information and reasonable estimation methods. However, estimates are revised in case of changes in circumstances of estimation, obtaining new information or additional developments. If the impact of the change in accounting estimate is related to only one period, it is reflected in the financial statements in the current period in which the change is made, if it is related to the future periods, it is reflected prospectively in the financial statements both in the period in which the change is made in consideration of determining the period profit or loss.

Detected significant accounting errors are applied retrospectively and previous period financial statements are restated. An error is corrected by restating the comparative amounts for prior periods when it occurs, or by restating the retained earnings account for the period in question prior to the next reporting period. If the reorganization of the information causes an excessive cost, the comparative information of the previous periods is not reorganised and the accumulated profit account of the following period is rearranged by the cumulative effect of the error before the beginning of the period in question.

2.4. Summary of Significant Accounting Policies

2.4.1 Consolidation principles

Consolidated financial statements include the financial statements of VBT Yazılım A.Ş. (Company) and the financial statements of the said Company's subsidiaries. During the preparation of the financial statements of the companies included in the scope of consolidation, necessary adjustments and reclassifications have been made in order to comply with the TAS / TFRS and the accounting policies and presentation formats applied by the Group.

The principles for preparing consolidated financial statements is as follows;

- The consolidated financial statements include the financial statements of the Company and its subsidiaries.
- Subsidiaries represent the entities in which the parent company has more than 50% of the shares, voting rights or the majority of the management or the right to elect the majority of the management through capital and management relations, either directly or through other subsidiaries or participations. The controlling power is defined as the parent company's power to manage the financial and operating policies of its subsidiaries and to provide benefits from the activities.
- Subsidiaries are included in the scope of consolidation as of the date control over their activities is transferred to the Group, and will be excluded from consolidation at the date when control is abolished. Accounting policies applied by the subsidiaries have been aligned with the accounting policies applied by the Group in order to ensure consistency.
- The financial statements of the subsidiaries are consolidated using the full consolidated method. In this context, the carrying value of the subsidiaries and the shareholders' equity is netted off, the carrying amount of the shares held by the Company and the dividends arising from them are netted from related equity and income statement accounts.
- The receivables and payables of each of the subsidiaries within the scope of consolidation and the sales of goods and services to each other and the revenue and expense items arising from transactions with each other are mutually offset.
- Amounts corresponding to minority interests excluding the interests of parent company and subsidiaries are deducted from all equity accounts group items, including the paid-in capital/issued capital, of the subsidiaries within the scope of consolidation, and shown under the name "Non-controlling interests" in the equity account group of financial statement.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

VB T Yazılım A.Ş. has 100% share of VB T Software DE GmbH. The said subsidiary was consolidated according to the full consolidation method.

VB T Yazılım A.Ş. has 20% share of English Guru LLC. The mentioned subsidiary is consolidated by using equity method.

(**) KPAY Ödeme Teknolojileri Danışmanlık San.ve Tic. A.Ş.'s capital is 214.285 TL, and VB T Yazılım A.Ş. participates in 30% of the company with 64.285 TL. The amount paid (300.000 USD) for the acquisition of participation in KPAY A.Ş. is 5.527.677 TL.

2.4.2 Cash and Cash Equivalents

Cash states cash and drawing accounts in the enterprise. Cash equivalents state any assets held for any short-term cash obligations and not used for investment or other purposes. It is essential that its value may be converted certainly to a cash value and the risk to change its value is negligible for any asset to be accepted as a cash equivalent.

Cash and cash equivalents are integral part of the cash management of the enterprise. Any financial instruments to be included in the scope of cash equivalents consist of cheques (current type), liquid funds, short-term bonds and drafts, receivables from reverse-repo transactions, deposit accounts with a term shorter than 3 months (any deposit account longer than 3 months is shown among financial investments), and government bonds and treasury bonds with remaining due date shorter than 3 months on acquisition date, or any other liquid debt instruments, and any receivables from money market.

Cash and cash equivalents in the financial statements of the Group as cash in hand as of the balance sheet date and the demand deposits are reported.

2.4.3. Financial Instruments:

TAS 32 Financial Instruments: of the financial assets defined in the Submission Standard and TAS 39 (in TFRS 9 for early appliers), any financial assets held for investment purpose, and cash and cash equivalents, any receivables from activities in the finance sector, trade and other receivables, and ones remaining out of investments assessed by the equity method are shown in this item.

Any financial assets classified in the "current assets includes ones held for purposes of evaluating any inactive funds, obtaining direct interests, dividend incomes, trading profits, etc., or protecting against any damage other than performing any obligations.

Of the financial asserts, any ones with remaining due dates shorter than 12 months since the reporting day, and although their due date is longer, ones intended to be sold within 12 months are shown in the item "Financial Investments." Any ones with remaining due date longer than 12 months and any ones intended to be held for a period longer than 12 months are shown in the item "Financial Investments" in the non-current assets.

2.4.4. Derivative Financial Instruments

Any derivative financial instruments, which are appropriate the definition "financial asset or financial obligation" in TAS 32, are calculated in accordance with the provisions of the TAS 39 (TFRS 9), and submitted furthermore in the financial statement.

The Group does not have any derivative instruments as of the balance sheet date.

2.4.5. Receivables from Financial Sector Activities

Any receivables other than cash and cash equivalents and resulted from the financial sector are shown here.

As of the balance sheet date, the Group does not have any receivables from finance sector activities.

2.4.6. Trade Receivables / Related Parties

They are receivables from customers taken to the financial statements for all or part of a revenue.

In accordance with TFRS 15 Revenue from Customer Contracts, commercial receivables arise when the entity's unconditional right to charge the customer is expected to be collected.The right to receive the price is unconditional, but only if the collection of the price depends on a term.

Therefore, in order for a receivable to be a commercial receivable, the invoice must be issued or in a similar manner to be agreed in a binding manner with the customer.In cases where the enterprise has performed its performance by transferring its goods or services to the customer before the right to receive the price unconditionally, no commercial receivable will arise, the related asset is shown in the "Contractual Assets" item.The part of trade receivables from related parties is shown in a separate sub-item. Deposits and guarantees given are shown in other receivables, not under this item.

VBT YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

If any, late interests, interests, etc. of the trade receivables are shown not in the provisions for revenue, but in the provisions for interest incomes, exchange differences, etc. in the financial statements, and these amounts are also shown in the trade receivables and the relevant statements are made in the footnotes. Such interest incomes, exchange differences, etc. are also shown in the other real operating income in Profit or Loss and Other Comprehensive Income Statement.

Even if the time elapsed for foreclosure of the trade receivables is longer than 12 months, it is essential that such receivables must be classified in the current assets in the regular course of business of the enterprise.

Related Parties

The Group's related parties include entities that can directly or indirectly control or significantly affect the counterparty through shareholder, contractual right, family relationship or similar means. In the accompanying financial statements, the shareholders of the Group and the companies owned by such shareholders, their key management personnel and other companies known to be related are identified as related parties.

2.4.7 Contract Assets

It is used in tracking assets defined as contract assets in TFRS 15. According to TFRS 15, contract assets are the right of the enterprise to receive the price that is subject to another condition (for example, the future performance of the enterprise), except for the expiration of time, in return for the goods or services transferred to the customer. The total amount of contract assets is shown separately in the statement of financial position.

2.4.8 Other Receivables

Receivables excluding trade receivables and financial investments. Deposits and guarantees given, other receivables from related parties, receivables from public administrations other than assets related to current period tax and other various receivables can be shown as examples. The part of these receivables from related parties is shown in a separate sub-item in accordance with the sample format.

2.4.9. Inventories

It is an item, in which any assets that are available as substances and materials held to sell, manufactured to sell, and to be used during manufacturing process or service delivery in the regular course of business of the enterprise, are shown. The advances given for purchase orders have not a nature of inventories, and are shown in the "Prepaid Expenses," until the inventory accounting is conducted.

2.4.10. Alive Assets

If the current assets included in the TAS 41, and any agricultural products collected during harvest relate to the agricultural activities, they are shown in this item. This item is used by the enterprises, which deal with agricultural activities only.

The Group does not have any biological assets as of the date of financial statement.

2.4.11. Prepaid Expenses

All amounts paid usually to the suppliers and to be transferred to the expense and cost accounts in a subsequent period (or period) are shown in this item. If the item is negligible, such amounts are submitted in the other current/non-current assets.

2.4.12. Assets Related To the Current Period

Pursuant to the Income Tax Standard TAS 12, any assets such as various taxes and funds related to the current period tax payable over revenue prepaid and possibly subject to discount are shown in this item.

2.4.13. Other Current/Non-Current Assets

The current/non-current assets such as transferred VAT, VAT discount, other VAT, counting and acceptance points are shown in this item.

2.4.14. Non-current Assets Classified For Sales Purpose

Pursuant to the Standard on Non-Current Assets and Discounted Operations TFRS 5, any non-current assets classified for sales purpose, because their book value shall be recovered by means of the sales procedure rather than use, and all assets to be sold are shown in this item.

Furthermore, pursuant to the TFRS 5, any non-current assets classified for purpose of distributing them to the shareholders and all other assets to be sold are also shown in this item since it is committed to distribute them to the shareholders. In this case, this item is called so as to state these assets.

The Group does not have any non-current assets classified as held for sale as of the date of financial statement.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

2.4.15. Investments Assessed By Equity Method

Pursuant to the Standard on Investments in Subsidiaries and Business Associates TAS 28, any subsidiaries and business associates assessed by equity method are shown in this item.

The Group has no affiliates and business associates assessed by equity method as of the financial statement period.

2.4.16. Investment Property

Pursuant to the Investment Property Standard TAS 40, any real properties (lands, buildings part of a building) acquired (by their landlord or tenant according to the financial leasing agreements for purposes of obtaining a rental income or capital gains income or both of them) are shown in this item. If the real property is subject to the financial leasing, the details specified in three Standards on Leasing Operations TAS 17 are added.

If it is included in the definition of investment property and the tenant uses the fair value method, it is possible that a right for a real property held by the tenant under the operating lease is shown as an investment property in this item.

The Group does not have any investment property.

2.4.17. Tangible and Intangible Fixed Assets

Tangible Assets:

Tangible assets are stated at cost value by deducting accumulated depreciation and accrued depreciation, if any.

The cost value, purchase price, import duties and non-refundable purchase taxes of the tangible assets are the costs incurred to make the tangible asset ready for use. Maintenance and repair costs are recognized in profit or loss in the period in which they are incurred.

Depreciation of tangible fixed assets is determined by using the straight-line method based on the useful lives of the assets. The expected useful life is reviewed annually for the possible effects of the changes in the depreciation method and the estimates and is accounted for prospectively if there is a change in the estimates.

The estimated useful lives of tangible assets are as follows:

| | <u>Useful Life</u> |
|----------------------------------|---------------------------|
| - Buildings | 50 Years |
| -Vehicles | 4-5 Years |
| - Plant, Machinery and Equipment | 5 Year |
| -Furniture and fixtures | 3-4-5-10-15 Years |
| -Special Cost | 5 Years |

When a tangible asset is sold, or if no future economic benefits are expected from its use or sale, it is excluded from the statement of financial position. The gain or loss arising on the sale or retirement of a tangible asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

The advances given for the purchases of tangible assets are shown under "Prepaid Expenses" item rather than this item until the relevant asset is capitalized.

-Right of Use Assets

According to TFRS 16 Leases, the lessee is required to present right-of-use assets separately from other assets in the statement of financial position or in the notes. Businesses that prefer to show their right of use assets separately in the statement of financial position show these assets in this item.

-Intangible Assets:

a.Intangible assets acquired

Intangible assets are stated at cost value by deducting accumulated amortization and depletion expenses and depreciations.

Expected useful life, residual value and depreciation method are reviewed every year for the possible effects of the changes in the estimations and they are accounted for prospectively if there is a change in the estimates.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

b. Internally generated intangible assets-research and development expenses

i) Research activities expenses are recognized in profit or loss in the period in which they are incurred.

ii) Expenses within the scope of development activities:

- Capitalized Development Costs

Intangible assets that are created internally as a result of the development of a project that is ordered or initiated with a new idea in the company are capitalized and registered only when all the following conditions are met:

- It is technically possible to complete the intangible asset to be ready for use or ready for sale,
- The intention to complete, use or sell the intangible asset,
- The intangible asset can be used or sold,
- It is known that the asset has a kind of possible economic benefit for the future.
- Having appropriate technical, financial and other resources to

complete the development of the intangible asset, use or sell the asset in question, and

- The cost of developing the asset can be measured reliably during the development process.

During the period, the Group management re-examined the existence of possible economic benefits of internally generated intangible assets created internally. The Group management believes that the projects will continue as expected and anticipates that the projects will create economic benefits upon analysis. The management is sure that even if the economic benefit decreases, it is possible to recover the registered values of the assets. This situation is closely monitored by the Group management and management will make adjustments in cases where future market activities require adjustment.

-Special software project expenses:

Special software project expenses, which are specially developed for the customer and cannot be sold to another customer, are recorded as expenses depending on the realization of the revenue as of the date of completion. In special software projects that extend to more than one period; Project expenses, which are determined by matching the revenue amount accrued in connection with the invoice issued within the scope of partial deliveries and the expenses corresponding to the completed part of the project, are recorded as expense in the period of partial delivery. Development expenses related to such special software projects are not capitalized.

The amount of intangible assets created internally is the total amount of expenses incurred from the moment the intangible asset meets the above-mentioned accounting conditions. When intangible assets created internally cannot meet the conditions stated above, development expenditures are recorded as an expense in the period they occur.

After initial recognition, internally created intangible assets are shown over the amount after the accumulated amortization and accumulated impairment losses are deducted from their cost values, just like intangible fixed assets purchased separately.

c. Derecognition of intangible assets

An intangible asset is derecognised when the intangible asset is sold or if no future economic benefit is expected from its use or sale. Any gain or loss arising from the sale of an intangible asset is calculated as the difference between the net proceeds from sale of assets and the book values, if any. This difference is recognized in profit or loss when the related asset is excluded from the balance sheet.

The company's intangible assets item; It includes the acquired rights and computer programs as well as development costs and other identifiable rights related to computer software and programs created within the enterprise. Development costs consist of the wages of the personnel directly involved in the creation of the asset and the costs directly attributable to the creation of the intangible asset. Government incentives associated with development costs are recorded in parallel to the redemption period of intangible assets.

The rates determined by taking into account the useful lives of Intangible Fixed Assets are as follows:

| | <u>Useful Life</u> |
|--------------------------------|---------------------------|
| -Licenses | 5 Years |
| -Capitalized Development Costs | 7-12 Years |

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

2.4.18. Deferred Tax Assets

The deferred tax assets include any amounts to be recovered in next periods for any taxes collected upon revenue due to any deductible temporary differences, and any non-used financial losses transferred to next periods, and any non-used tax advantages transferred to next periods.

The item "Deferred tax assets" is not used for any (permanent) amounts, which are not impossible to deduct under the tax legislation.

2.4.19. Short-Term / Long-Term Obligations

The obligations include ones, which shall cause exit of any assets that arise from any events occurred in the past, and if they are paid/executed, shall contain a financial benefit from the enterprise. This definition states basic characteristics of the obligations, and identifies the basic criteria that such obligations must meet to take place in the Financial Statement. Therefore, since the obligation definition meets any criteria to show in financial statements, it also contains any obligations not specified in the Financial Statement.

Pursuant to paragraphs 69-76 of the TAS 1, any obligations having any one of the following characteristics are classified as short-term obligations:

- (a) It is expected that they shall be paid in the regular course of business;
- (b) They are held primarily for commercial purposes;
- (c) They shall be paid within two months following the reporting period (balance sheet date); or
- (d) The enterprise has no unconditional right to defer payment of its obligations for a period of at least two months following the end of the reporting period (balance sheet date). The provisions that the obligation shall be paid by issuing an equity instrument at the counter party's never restrict such obligation.

Entity/establishment classifies all the other liabilities as being long-term.

2.4.20. Borrowings

Of the financial obligations defined in the TAS 32, any borrowings from financial markets such as amortized bank loans, issued bonds, bills and debentures, which have a nature of borrowing, and in other words, which are calculated by the efficient interest method after first accounting, and capital instalments and interests of their long-term type, debts from financial leasing transactions, etc.

Of the financial borrowings, ones, which have the characteristics listed above for short-term obligations, are classified as short-term obligations, and others are classified as long-term obligations.

Pursuant to the Standards on Financial Instruments and Details TFRS 7, any relevant details are given in footnotes.

Leasing Transactions

The leasing transaction, in which the lessee assumes a great portion of risks and acquisitions related the ownership, is classified as financial leasing. Other leases are classified as operating leases.

Leasing- leasing company

Rental income from operating leases is recognized on a straight-line basis over the period of the relevant lease. Direct initial costs incurred in the realization of the lease and negotiation are included in the cost of the leased asset and amortized on a straight-line basis over the lease term.

Leasing- company as leaseholder

Assets acquired through financial leasing are capitalized using the fair value of the asset on the date of lease, or capitalized using the lower of the present value of the minimum lease payments. The liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are allocated as the finance expense and the principal payment that provides for the decrease in the finance lease obligation and thus the interest rate on the remaining principal amount of the debt at a fixed rate is calculated. Financial expenses are recorded in the profit or loss statement except the capitalized portion of the financial expenses in the scope of the general borrowing policy detailed above. Contingent rents are recognized as an expense in the period in which they are incurred.

Payments made for operating leases (incentives received or to be received in order to be able to perform leasing from the lessor are recorded in the profit or loss statement on a straight-line basis over the period of the lease) are recognized in the statement of profit or loss on a straight-line basis over the period of the lease. Contingent rents under operating leases are recognized as an expense in the period in which they are incurred.

VBT YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

Sales and lease back transactions

A sale and leaseback transaction involve the sale of an asset and the leaseback of the same asset. Lease payments and the sale price are usually interdependent, as they are negotiated as a whole. The accounting method of a sale and leaseback depends on the type of leasing transaction involved. In the event that a sale and leaseback result in a financial lease, the portion of the sales revenue above the carrying amount is not recognized as immediate income by the seller-lessor. Instead, the said income is deferred and amortized over the term of the lease. If the leaseback is a financial leasing, the transaction is a tool that the lessor provides financing to the lessee, provided that the leased asset is the guarantee of the transaction. Therefore, it is not right that sales revenues exceeding the carrying amount of the related asset are considered as income. Such excess amounts are deferred and amortized over the lease term.

2.4.21. Short-Term Parts of Long-Term Obligations

This item shows short-term parts of the long-term obligations. If short-term parts of the long-term obligations are negligible, they are shown together with "Short-Term Obligations" under the item "Financial Obligations."

2.4.22. Other Financial Obligations

Of the financial obligations defined in the TAS 32, any obligations, which have not a nature borrowing, and in other words, which arise from the derivative financial instruments not measured from the amortized costs calculated by the efficient interest method after first accounting, and any financial obligations such as financial warranty agreements are shown in this item.

2.4.23. Obligations from Financial Sector Activities

Any obligations arisen from such activities of any corporations, which enter into consolidation and operate in the financial sector, are shown in this item. In the footnote, details are given a sector basis. Their examples include any obligations from banking activities (deposit accounts, participation accounts, etc.), obligations from insurance activities (obligations from insurances and reassurance activities, deposits, obligation from retirement activities, etc.), obligations from financial leasing activities, etc.

The Group has no Obligations from Financial Sector Activities as of the financial statement period.

2.4.24. Trade Payables

They are obligations owed to third parties in capacity of suppliers.

It is essential that its invoice must be issued or similarly the supplier (customer) and parties agree upon stringently for a debt (receivable) to become a trade debt (receivable) pursuant to paragraph 11 of the Standard TAS 37 Provisions, Contingent Obligations and Contingent Assets. Any debts (receivables), which meet the criteria to include them to the financial statements as of the reporting date, but not agreed upon so yet, are classified as accruals. However, such accruals are shown in the items "Trade Receivables" and "Trade Debts" in the Financial Statements to ensure compliance to any practices in our company.

The received deposits and guarantees are not expressed under this item but under other payables.

If any, late interests, interests, etc. of the trade receivables are shown not in the provisions for revenue, but in the provisions for interest incomes, exchange differences, etc. in the financial statements, and these amounts are also shown in the trade receivables and the relevant statements are made in the footnotes. Such interest incomes, exchange differences, etc. are also shown in the other real operating income in Profit or Loss and Other Comprehensive Income Statement.

Even if the time elapsed for foreclosure of the trade receivables is longer than 12 months, it is essential that such receivables must be classified in the current assets in the regular course of business of the enterprise.

2.4.25 Obligations for Employee Benefits

Any amounts such as pays, salaries, social security contributions, etc. borrowed due to benefits provided to the employees within the respective period are shown in this item. It may also be called alternatively as "Pay Accruals of Employees," etc., provided that it shows its contents. If the item is negligible, such amount is shown in the item "Trade Payables."

2.4.26. Other Payables

They include any obligations, which keep out of the trade payables and arise from any financial activities. Their examples include obligations owed to the related parties, who have not capacity of suppliers or customers, deposits and guarantees received, obligations from public authorities and other miscellaneous obligations.

Any borrowings made from financial instruments for purpose of obtaining finance from the related parties are shown not in this item, but in the short-term or long-term borrowings by their term. If such amounts are negligible, further items are opened for these amounts.

2.4.27 Contractual Obligations

It is used in monitoring the obligations defined as contractual obligations in TFRS 15. According to TFRS 15, the contractual obligation is the obligation of the enterprise to transfer the goods or services to the customer in return for the amount collected (or entitled to collection) from the customer.

A contractual obligation arises if the customer pays the compensation or the entity has the unconditional right (ie a receivable) before a good or service is transferred to the customer. The total amount of contract liabilities is shown separately in the statement of financial position.

2.4.28. Government Incentives and Grants

Pursuant to the TAS 20, if any alternative option is selected for submission of incentives related to assets, any amounts shown as deferred revenue are shown in this item.

2.4.29. Deferred Incomes (Excluding Contractual Obligations)

They are any obligations related to incomes, which are collected completely or partially from customers and other persons or accrued as receivables in that period under the sales agreements and for other reasons, but belong to next periods. If the deferred incomes are negligible, such amount is shown in the other short-term / long-term obligations.

2.4.30. Period Profit Tax Obligation

Part of any taxes collected on any incomes under the TAS 12 as expected to pay to the tax office is shown in this item. Any prepaid taxes of the period profit are deducted from such amount and shown in the item "Assets for the Current Period Taxes."

Tax calculated on basis of the company's earnings

Any tax obligation on profits or losses for the period includes the current period tax and deferred tax.

Current period tax

The current period tax obligation includes any tax obligation entries calculated on part of the taxable profit at tax rates, which are valid and legitimated as of the financial statement date, under the current tax legislation.

Deferred tax

The deferred tax is calculated upon any temporary differences between values of the assets and liabilities entered in the financial statement. Tax values of the assets and liabilities state any amounts to affect tax assessment of such assets and liabilities in next periods under the tax legislation. The deferred tax is calculated on tax rates as expected to apply in the period, when tax asset shall realize or the obligation shall be executed by considering tax rates that are current of become into force as of the financial statement date.

The deferred tax asset or obligation shall be reflected to the financial statements at increase and reduction rates as estimated to be done on any tax amounts payable in any periods, when such temporary differences shall be eliminated. The deferred tax asset is added to the financial statements, provided that any deductible temporary differences are most likely to be utilized to obtain a taxable profit in the future, while the deferred tax obligation is calculated for all taxable temporary differences. The registered value of the deferred tax asset is reduced to the extent that it is not possible to obtain a financial profit to enable to provide part or all of the deferred tax asset.

Deferred tax assets and deferred tax liabilities are mutually deducted from each other, provided that they are subject to the tax legislation of the same country and there is a legally enforceable right to offset current tax assets from current tax liabilities.

Period current and deferred tax

Current tax and deferred tax for the period, other than those associated with items that are directly accounted as receivable or debt in equity (in which case the deferred tax related to the relevant items is also accounted directly in equity) or arising from the initial registration of business combinations, are accounted as expense or income in the income statement.

2.4.31. Provisions

Provisions include obligations with indefinite time and amount and are calculated according to most realistic estimate made by the company's management. Provisions for the employee benefits under the Employee Benefit Standard TAS 19 include any provisions for financial sector activities, and other provisions showing any provisions allocated under the TAS 37 such as possible compensation, penalties and damages, reconstruction provisions, provisions allocated for financially disadvantageous agreements, etc.

VBT YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

Employee Benefits

The accrued liabilities (or provisions) needed to be shown in the financial statements under the UMS 19 "Employee benefits" are given in this item.

In case of severance pay, pension or dismiss, they are paid in accordance with the legislation in force in Turkey and the provisions of the collective labour agreement. Pursuant to the updated Employee Benefit Standard UMS 19 ("UMS 19"), such payments are defined as the identified pension benefit plans.

Under the legislation in force in Turkey, it is compulsory that a severance pay must be paid to employees, who complete their annual tenure of office and are dismissed without any reasonable reason, and are called for military service, deceased, and complete a tenure of office of 25 years for men or of 20 years for women, or get to the pension age. The severance pays are calculated upon a gross salary of 30 days per office year. The calculation involves real discount rates and the current values of the severance pay payable in the future as of the balance sheet date.

Any amendments made in the TAS 19 change the identified benefit plans and severance pat accounting. Most important amendment involves accounting of the identified benefit obligations and plan assets. If any amendments are made in realistic values of the identified benefit obligations and plan assets, such amendments must be entered and thus this eliminates the "corridor method" allowed in the previous version of the TAS 19, and facilitates entry of the past service costs.

Such amendments require calculating all actual losses and incomes immediately as other comprehensive incomes to show actual value of plan gap or surplus of the net pension asset or liability in the financial statement. Additionally, a 'net interest' amount calculated as a result of the discount rate applied to the identified net benefit liability or asset is used instead of any interest expenses for any estimated returns obtained the plan assets described in the previous version of the TAS 19. The amendments made in the TAS 19 are applied retrospectively.

According to the Group Personnel, actuarial profit / loss in the defined benefit plans is calculated and are presented in the financial statements.

Pension plans

The Group has no pension benefit plants.

2.4.32. Liabilities regarding Current Period Tax

Within the scope of TAS 12, the part of the taxes collected on income and expected to be paid to the tax administration in the periods following the subsequent period are presented under this item.

2.4.33. Deferred Tax Liability

This kind of tax refers to the income taxes to be paid in the following periods based on taxable temporary differences. "Deferred tax liability" item may not be used for non-taxable (continuous) amounts in terms of tax legislation.

The Group has no deferred tax liability as of the financial statement period.

2.4.34. Other Short-term/Long-term Liabilities

Short-term/ long-term liabilities, which are not shown under the abovementioned items such as inventory overages, other miscellaneous obligations and liabilities are given under this item.

2.4.35. Liabilities Regarding Group of Assets Held for Sale

Liabilities regarding the groups to be disposed, which will be recovered by means of selling rather than sustained use of carrying amount, are presented under this item within the scope of TFRS 5.

Besides, liabilities regarding the groups to be disposed, which are classified with intent to distributed to the shareholders as per TFRS, are also presented under this item hereby as of the date distribution to shareholders is committed. In this case, the name of the item may be given in a manner to refer to these obligations.

The Group has no liability for the asset groups held for sale as of the financial statement period.

2.4.36. Equities

Equities are the shares which are left behind after any and all obligations of the enterprise are deducted from the corporate assets. Contributed capital, share premiums, positive distinction from share capital adjustment, reserves on retained earnings, prior years' profits and losses and profit or loss for the financial year are presented under this item.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

2.4.37. Positive Distinction from Share Capital Adjustment

As of the financial statement period, there is no positive difference in capital adjustment of the Group.

2.4.38. Repurchased Shares (-)

Within the scope of the paragraph 33 of the TAS 32, if a company purchases its own shares, purchase price of the said shares are deducted from equity and presented under "Repurchased Share (-)" item. In the case that shares are purchased by other parties under consolidation, purchased shares are still presented under this item but such amounts are presented under "capital adjustments due to cross-ownership" item as per TAS 32. Differences arising as a result of buying and selling of repurchased shares are not presented under profit or loss item.

2.4.39. Capital Adjustments due to Cross-ownership (-)

This item is used with intent to assure that the paid-in capital of the company is presented by the amount registered in the legal records and for the purpose of adjusting the amount of paid-in capital under an item other than the paid-in capital in the event that the shares of the company are purchased by the parties under consolidation.

The Group does not have any capital adjustments due to cross-ownership as of the financial statement period.

2.4.40. Share premiums /discounts

In this item, amounts, which arise from capital movements such as share premiums, nullified equity interests, profits of share sales of controlling partners and deemed to be a part of the capital are presented.

Negative differences occurring due to the difference between nominal value of shares issued under nominal value and issue price are presented separately in the disclosures.

2.4.41. Other Accumulated Comprehensive Income and Expenses which cannot be reclassified under Profit or Loss

This item involves revaluation and measurement gains/losses (increases/decreases in tangible fixed assets revaluation, increases/decreases in intangible fixed assets revaluation, gains/losses on defined benefit plans re-measurement), which are defined as an item of other comprehensive income and reported directly as an item of equity in the period it appears and any circumstances as well as income items such as other gains and losses.

The Group has accumulated other comprehensive income/expenses arising from severance pay actuarial gains and losses not be reclassified to profit or loss.

2.4.42. Other Accumulated Comprehensive Income and Expenses which can be reclassified under profit or Loss

This item involves foreign currency conversion differences, revaluation and classification gains/losses (revaluation and/or classification gains/losses of available-for-sale financial assets, shares to be classified under profit/loss out of the profit of other comprehensive income of investments valued by equity method), which is defined as an item of other comprehensive income (expenses) and reported directly as an item of equity in the period it appears and can be written-down to profit or loss later, hedging gains and losses (gains and losses for hedging against cash-flow and investment risk regarding companies located abroad), and comprehensive income (expense) items such as other gains/losses.

The Group does not have any other comprehensive income or expenses to be reclassified to profit or loss as of the financial statement period.

2.4.43. Reserves on Retained Earnings (Non-distributable reserves)

These are the kind of reserves, which are retained due to obligations arising from the law and agreements or for certain purposes other than profit distribution (for example, in order to obtain tax advantage from earnings gained from sale of a subsidiary). These reserves shall be presented based on their amounts as specified in the legal records and differences occurring as a result of valuations conducted under TAS are associated with the profit/losses of the previous years.

2.4.44. Previous years' Profit/Loss

Profit/loss accumulated except for net profit for the year are offset and presented under this item. Extraordinary reserves, which are accumulated profit/loss by nature, thus not constrained are considered as profit and presented under this item.

2.4.45. Cash Flow Statement

The Group draws up cash flow statements in order to inform financial statement users about the changes that occur in the assets of the company, its financial structure and its ability to direct the amount and timing of cash flows according to the changing conditions. In a cash flow statement, cash flows related to a period are classified and reported based on operation, investment and financing activities.

Cash flows from operating activities show the cash flows which arise from the core activities of the Group. Cash flows related with investment activities show the cash flows which are used and obtained by the Group in its investment activities (tangible asset investments and financial investments). Cash flows related to financial activities show the resources used by the Group in its financial activities and the repayments related to such resources. Cash and cash equivalents consist of cash and checking account as well as short-term high-liquidity investments with a term of 3 months or less which can be easily cashed in.

2.4.46. Operating Activities

Operating activities provide core earnings/proceeds for a company. Activities which are defined below and not under the scope of the investment and financial activities are also evaluated as core activities.

Recording of Revenue / Proceeds

Revenue are reflected in the financial statements over an amount which reflects the cost that the Group expects to qualify for the transfer of the goods or services it commits to its customers within scope "TAS 15 Revenue from Customer Contracts" standards.

For this purpose, a 5-step process is applied in the recognition of revenue in accordance with TFRS 15 provisions.

- Identification of contracts with customers
- Determination of separate performance criteria and obligations in the contract
- Determination of contract price
- Distribution of Sales Price to Liabilities
- Record revenue as contractual obligations are met

When the Group fulfills the performance obligations committed in the customer contracts in accordance with TFRS 15, in other words, when the control of the goods and services is transferred to the customer, the proceeds are taken to the financial statements. The Group records its performance obligations over time or at a certain time.

If the timing of the payments agreed by the parties of the contract provides an important financial benefit, when the transaction cost is determined, the adjustment is made according to the effect of the time value of the money.

In case the Group foresees that the period between the date of the transfer of the goods or services committed to the customer at the beginning of the contract and the date on which the customer pays the price of such goods or services will be one year or less, it doesn't make any adjustment for the effect of a significant financing component by choosing the facilitating practice.

Additional explanations are given below for some important income groups

Revenues from Licence Sales

The Group can sell licenses by making simultaneous contracts with the license provider and the customer. The Group is not directly responsible for the fulfillment of the license performance obligation in such agreements (for example, updating the license), but it has discretion in determining the license price and bears all the risks related to collection in case the license price is not paid. For this reason, the Group has considered itself as the principal in these agreements. Revenues related to the license performance obligation are recognized in the financial statements "at a certain point in time" and "gross" when the control passes to the customer.

Revenues from Hardware Sales

Hardware consists of the products that the Group sells by supplying its performance obligation from other manufacturers. Hardware integration can be an integral part of the time-consuming installation or can be sold to the customer alone.

Internally generated Software and Technology Revenues

The Group's software development services consist of man-hourly services provided by providing human resources to the customer or projected software development services. The control of software development services passes to the customer as the service is provided, and the customer receives and consumes the benefit from this act at the same time.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

The completion stage of the contract is determined based on the time spent and As working hours and direct expenses occur, Income from contracts are recognized on contract fees. Revenues from such services are recorded as income on an accrual basis over the hours of service provided in accordance with the contractual principles, in accordance with the periodicity principle.

For the short-term and one-time services, the Group recognizes the income "at a certain point in time" when the control is passed to the customer.

Special software Project Revenues

Special software development project revenues are included in the consolidated financial statements as income based on the level of completion of the contractual obligations as of the balance sheet date.

Private Integrator Service Revenues

The Company, which is a Private Integrator Service provider that has received a special integration permit from the Revenue Administration, provides its customers with e-transformation services such as e-invoice, e-archive, e-waybill, e-ticket, through its own data processing system. Private integrator service is in the form of credit sales, and income is recorded depending on the credit usage.

Maintenance Service Revenues

The Group sells maintenance and repair services for the products and software it produces. Offered maintenance, repair and service prices are determined separately from the products sold and are considered as a different service promised within the contract. For this reason, the service to be provided within the scope of maintenance and repair is accounted for as a separate performance obligation.

For each performance obligation, the Company determines at the beginning of the contract whether it has fulfilled its performance obligation over time or whether it has fulfilled its performance obligation at a certain point in time. The Group transfers the control of the service in maintenance and repair sales over time and thus fulfills its performance obligations over time and measures the progress towards the full fulfillment of this performance obligation and recognizes the revenue over time.

The Group can sell the license and hardware as well as the maintenance support packages of the party that provides the license. In the said maintenance support packages, the Company has considered itself as the principal in the contracts for which it is responsible for the performance of the performance. The company recognizes the amount paid to the service provider as a cost in its financial statements, and the provision for the maintenance service provided to the customer as income, as it fulfills the obligation in the contracts it is principal.

While determining the stand-alone sales prices of maintenance services sold together with other performance obligations in the contracts, the management estimated the stand-alone sale price of the maintenance service using the cost plus profit margin method, taking into account the past experience and the observable price in similar contracts. In contracts where discount is in question, it is reflected to all performance obligations at the discount rate.

Revenues from sales of outsourcing and support services

The Group provides staffing, support and consultancy services in line with the expectations of its customers. The control of staffing and some support services passes as the service is provided to the customer, and the customer receives and consumes the benefit obtained from this act at the same time. For this reason, it is included in the financial statements on a "over time" basis.

2.4.47. General Administrative Expenses, Marketing Expenses, Research and Development Expenses

Administrative expenses, marketing, sales and distribution expenses and research and development expenses, which are directly related with profit or loss within the scope of TAS 38- Intangible Fixed-Assets Standard are presented separately. The said expenses include depreciation and amortization costs as well as employee benefits.

(*) The Group associates research expenses directly with the statement of profit or loss in the period in which they are incurred. According to the findings of the research, the expenditures made within the scope of a project to produce a new product, software or program are defined as development and the development expenditures are capitalized by moving to the future periods when the future realizable value is assured. In this context, while the other costs and the costs incurred for the personnel who are directly involved in the creation of the Project are capitalized, it is taken into account how much time each staff takes in research and development activities. The cost of personnel related to research activities is recorded as expense when realized.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

2.4.48. Other Main Operating Income/Expenses

Although not arising from core activities and excluded from income and expenses related to core activities, other real operating income/Expenses are earnings other than proceeds, losses unrelated to cost of sales, income and expenses related to the activities which are evaluated within the scope of core activities as not evaluated under scope of investment and financial activities.

2.4.49. Investment Activities

Investment activities are related to acquisition and disposal of other investments, which are not presented under long-term assets and cash equivalents. The activities deemed to be under scope of investment activities are assessed under TAS 7.

Investing activities profit/loss are determined by means of deducting the income and expenses related to the same. Profit shares or loss shares, if any, related to the investments valued by equity method are either added to or deducted from the respective item.

In the case that investments valued by equity method are a part of the reporting entity, such item is reported under "Operating Activities Section".

2.4.50. Financial Income/ Financial Expenses

Financing activities change the structure and amount of shareholders' equity and foreign funds. Activities under scope of financing activities are evaluated within framework of TAS 7.

In the event that outstanding interest accrues before acquisition of a security with interest; later- collected interest is classified under periods of pre-acquisition and post-acquisition and only shown in financial statements as income under post-acquisition.

Interests, which are charged to overdraft accounts and short-term and long-term borrowings, in case of foreign currency borrowings, provided these are considered as adjustments to interest costs, currency differences thereof shall be presented under financial expenses item.

2.4.51. Earnings per Share

Net earnings per share are calculated by dividing the main shareholder's earnings or loss (numerator) the ordinary shareholders into the weighted average of number of ordinary shares (denominator) of the relevant period. In order to calculate the diluted earnings per share, the group adjusts the main shareholder's earnings or loss of the ordinary shareholders and number of weighted average shares based on the impacts of the dilutive potential ordinary shares

2.4.52. Effects of Changes in Foreign Exchange Rates

Foreign exchange transactions are carried out by converting foreign currency into TL based on the foreign currency rate on the date of transaction. Foreign currencies, monetary assets and liabilities are converted into TL at the end of the period based on the currency rate which is valid on balance sheet date. The foreign exchange differences resulting from these types of operations are presented in the income statement/balance sheet.

Exchange rate details used by the group at the end of the period are as follows;

| | <u>December 31, 2022</u> | <u>December 31, 2021</u> |
|------|---------------------------------|---------------------------------|
| USD | 18.6983 | 13,3290 |
| Euro | 19.9349 | 15,0867 |
| GBP | 22.4892 | 17,9667 |

2.4.53. Post-balance-sheet Events

Even though the post-balance sheet events emerge after the disclosure of any announcement regarding profit or other disclosure of other selected financial information, it covers all events between the date of the balance sheet and the authorization date for the publishing of the balance sheet. In the event that certain events require correction following the balance sheet date, the Group shall correct the amounts represented in the financial statements in accordance with the then current situation.

2.5. Important Accounting Evaluation, Estimation and Assumptions

The preparation of the financial statements requires using the estimates and assumptions which may affect the measurement of assets and liabilities reported as of the statement of financial position, disclosure of contingent assets and liabilities and income and expenses reported during the accounting period. Although these estimates and assumptions are based on the Group management's best knowledge of current events and transactions, actual results may differ from the assumptions.

VB T YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

2.6 New and Amended Turkish Financial Reporting Standards

As of December 31, 2022 the accounting policies adopted during the preparation of consolidated financial statements are applied consistently with the previous year's accounting policies except for new and changed Turkish Accounting Standards (TAS)/IFRS and TAS/IFRS Comments valid as of January 1, 2022. The effects of these standards and comments on the Group's financial situation and performance are explained in the related paragraphs.

New standards effective as of December 31, 2022, and changes and comments on existing previous standards:

IFRS 9, TAS 39, IFRS 7, IFRS 4 and IFRS 16 (Amendments) Benchmark Rate Reform – Phase 2

Benchmark Interest Rate Reform including amendments to IFRS 9, TAS 39, IFRS 7, IFRS 4 and IFRS 16- The changes in Phase 2 provide a practical solution to the changes required by the reform, determine whether hedge accounting needs to be terminated under the Benchmark Rate Reform with respect to the provisions of hedge accounting, and whether the entity's exposures resulting from financial instruments subject to the Benchmark Rate Reform. It clarifies the nature and extent of the risks and how the entity manages those risks and the progress the entity has made in completing the transition to alternative benchmark interest rates and how the entity is managing this transition. These amendments to IFRS 9, TAS 39, IFRS 7, IFRS 4 and IFRS 16 are applied for annual accounting periods beginning on or after 1 January 2021. Early application is permitted. The Group management has evaluated that these changes do not have any impact on the consolidated financial statements of the Group.

References to IFRS 3 (Amendments) Conceptual Framework

This amendment updates a reference to the Conceptual Framework for Financial Reporting in IFRS 3 without materially changing the provisions of the standard. These amendments are valid for annual accounting periods beginning on or after 1 January 2022. Early implementation is permitted by applying it in conjunction with other reference updates to the Conceptual Framework so far. The Group management has evaluated that these changes do not have any impact on the consolidated financial statements of the Group.

TAS 16 (Amendments) Property, Plant and Equipment – Intended Earnings Before Use

These amendments do not allow the revenues from the sale of the items produced to be deducted from the cost of the related asset while the related property, plant and equipment is brought to the required location and condition so that it can operate under the conditions intended by the management, and requires such sales revenues and related costs to be recognized in profit or loss. These changes are applied for annual accounting periods beginning on or after January 1, 2022. Early application is permitted. The Group management has evaluated that these changes do not have any impact on the consolidated financial statements of the Group.

TAS 37 (Amendments) Economically Disadvantaged Contracts – Cost of Fulfillment

With the amendment made in TAS 37, it is stipulated that the estimated costs of fulfilling the contract in order to determine whether the contract is an economically disadvantageous contract consist of both the variable costs incurred to fulfill the contract and the amounts distributed from other costs directly related to fulfilling the contract. This amendment is applicable for annual accounting periods beginning on or after 1 January 2022. Early application is permitted. The Group management has evaluated that these changes do not have any impact on the consolidated financial statements of the Group.

Standards and amendments published but not yet effective as of 31 December 2022:

The Group has not yet implemented the following standards, which have not yet entered into force, and the following amendments and interpretations to existing previous standards:

IFRS 17 Insurance Contracts

IFRS 17 requires insurance liabilities to be measured at a current coverage value and provides a more streamlined measurement and presentation approach for all insurance contracts. These requirements are designed to achieve consistent, principles-based accounting for insurance contracts. IFRS 17 will replace IFRS 4 Insurance Contracts as of 1 January 2023.

TAS 1 (Amendments) Classification of Liabilities as Short or Long Term

The purpose of these amendments is to ensure the consistent application of the requirements of the standard by assisting the decision-making process of companies regarding whether debts and other liabilities that do not have a definite maturity and are included in the consolidated statement of financial position should be classified as short-term (expected to be paid within one year) or long-term.

These amendments made in TAS 1 will be postponed for one year and applied for annual accounting periods beginning on or after January 1, 2023, but early application is also permitted.

VBT YAZILIM A.Ş.

FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022 (All amounts are expressed in Turkish Lira ("TL"))

Annual Improvements to TFRSs 2018 – 2020

Amendment to the First Implementation of TFRS 1 Turkish Financial Reporting Standards

With the amendment made in TFRS 1, the subsidiary that started to apply TFRSs at a later date than its parent in paragraph D16(a) of the standard, included cumulative translation differences in the scope of the exemption for the measurement of its assets and liabilities, and to apply TFRSs for the first time. Implementation costs for startups are reduced.

Amendment to TFRS 9 Financial Instruments

This amendment clarifies the fees considered in the assessment of derecognition of a financial liability. The debtor includes fees paid or received between the debtor and the creditor, including fees paid or received by the debtor or creditor on behalf of others.

Amendment to TAS 41 Agricultural Activities

With this amendment, the provision in paragraph 22 of TAS 41, which requires that cash flows arising from taxation not be included in the calculation in determining the fair value, has been removed. The amendment harmonizes the relevant provisions of the standard with the provisions of TFRS 13.

Amendments to TFRS 1, TFRS 9 and TAS 41 are applied for annual accounting periods beginning on or after 1 January 2022. Early application is permitted.

TFRS 4 (Amendments) Extension of the Temporary Exemption Period for the Application of TFRS 9

With the postponement of the effective date of TFRS 17 to 1 January 2023, the expiry date of the temporary exemption period for the application of TFRS 9 provided to insurers has also been revised to 1 January 2023.

TFRS 16 (Amendments) Continuing Concessions on Rent Payments Related to COVID-19 After 30 June 2021

The Public Oversight Accounting and Auditing Standards Authority ("POA"), published in June 2020, extending the exemption for tenants from determining whether certain concessions granted due to COVID-19 in rental payments due to COVID-19 have not been determined by a change in the lease for one more year. Continuing Concessions in Payments After 30 June 2021 - Amendments to TFRS 16.

When the change was first published, the facilitating practice only applied if any reduction in lease payments would affect payments that would normally be due on or before June 30, 2021. As lessors continue to offer rental concessions related to COVID-19 to tenants, and the impact of the COVID-19 pandemic continues and is significant, POA has extended the period of use of the facilitator by one year. This new change will be applied by tenants for annual accounting periods beginning on or after April 1, 2021, but early application is permitted.

TAS 1 (Amendments) Disclosure of Accounting Policies

This amendment requires businesses to take materiality as a basis in explaining their accounting policies. Although this amendment made in TAS 1 will be applied in annual accounting periods beginning on or after January 1, 2023, early application is allowed.

TAS 8 (Amendments) Definition of Accounting Estimates

With this amendment, the definition of "accounting estimation" was included instead of the definition of "change in accounting estimates", and sample and explanatory paragraphs regarding the estimates were added, furthermore, the issues of applying the estimates prospectively and correcting the errors retrospectively and the differences between these concepts were clarified. These amendments made in TAS 8 will be applied in annual accounting periods beginning on or after January 1, 2023, but early application is also permitted.

TAS 12 (Amendments) Deferred Tax on Assets and Liabilities Arising from a Single Transaction

With these amendments, it has been clarified that the exemption regarding the first recognition of an asset or liability in the financial statements does not apply to transactions in which equal amounts of taxable and deductible temporary differences occur when the asset and liability are first recorded. These amendments made in TAS 12 will be applied in annual accounting periods beginning on or after January 1, 2023, but early application is also permitted.

The possible effects of the said standards, amendments and improvements on the consolidated financial position and performance of the Group are being evaluated.

NOTE 19 – GOVERNMENT INCENTIVES AND GRANTS

| Short-Term Government Incentives and Grants | December 31, 2022 | December 31, 2021 |
|--|--------------------------|--------------------------|
| Government Incentives and Grants | 44.148 | 44.148 |
| Long-Term Government Incentives and Grants | December 31, 2022 | December 31, 2021 |
| Government Incentives and Grants | 110.370 | 154.518 |

The Group receives incentives for its TUBITAK (Scientific and Technological Research Council of Turkey) projects related to R & D activities. The incentive to be received is not recorded as income in the first accounting records and is recorded as income in proportion to the amortisation of the R & D investment. R&D incentives, which will be recorded as income in the following periods, are reported in the short and long term "Government Incentives and Grants" account items in the balance sheet accounts.

The Group benefits from the incentives and exemptions provided within the framework of the Law No. 5746 on Supporting Research, Development and Design Activities.

In this context, the Company has been entitled to corporate tax deduction arising from R&D incentives amounting to TL 42.007.496 as of December 31, 2022 and has used all of it as of December 31, 2022.

(The Company has been entitled to corporate tax deduction arising from R&D incentives amounting to TL 14.466.553 as of December 31, 2021 and has used all of it as of December 31, 2021.)

Seniority Incentive Bonus

As of 31 December 2022, there is no liability amount related to seniority incentive bonus. (31 December 2021- None)

Other

The Company does not have any provision for social aid raise payments and tax risks (December 31, 2021 - None).

B- Long- term provisions (Long-term Provisions Regarding Employee Benefits)**-Provision for Severance Pay**

As per the rules of the Labour Law in effect, it is obliged to pay the legally deserved severance payments to the employees whose labor contracts have expired provided that they have become entitled to acquire severance payment. In addition, according to the current Social Security Law's No.506/dated March 6, 1981, No.2422/dated August 25, 1999, No.4447, as well as its amended Article No.60, the legal severance payments have to be paid to the employees who became entitled to acquire severance payment in case they leave.

Severance payments are calculated based on one month salary per annum. As of the date of the balance sheet, severance payment to be paid is subjected to a ceiling amount of 19.983 TL (December 31, 2021-10.849TL).

Severance payment liability is calculated based on the estimation for the present value of the future potential obligations of the Company arising from the retirements of its employees. IAS 19 "Employee Benefits" (amended) sets forth actuarial valuation methods for the calculation of company's liabilities within the scope of defined benefit plans. Accordingly, actuarial assumptions used in the calculation of total liabilities are indicated below.

Main assumption is an increase in maximum liability for each service year in parallel to inflation rate. Therefore, the discount rate being applied implies the anticipated real interest rate after the adjustment of inflation effects in future.

The provisions at the balance sheet date have been calculated assuming an annual inflation rate of 16,91 %(December 31, 2021 - %12,95) and interest rate of 19,36 %(December 31, 2021 - %15,75), resulting in a real discount rate of approximately 2,10%(31 December, 2021 - %2,80).

In the calculation of provision for severance pay, the significant estimates are inflation, discount rate and the possibility willingly to leave the work.

| | December 31,2022 | December 31,2021 |
|-----------------------------|-------------------------|-------------------------|
| Provision for severance pay | 6.002.209 | 3.274.259 |

|--------------------------------|------------------|------------------|
| Premiums on Shares (Discounts) | 65.190.632 | 65.190.632 |

d- Restrained Reserves from Profit

According to the Turkish Commercial Code, legal reserves are divided into two groups as primary legal reserves and secondary legal reserves. Primary legal reservers are allocated as 5% of the legal net profit untill 20% of the paid capital of company is achieved. As for the secondary legal reserves, they are 10% of the profit distributed which exceeds the 5% of the paid capital. According to the Turkish Commercial Code, if the general legal reserve does not exceed half of the capital or the issued capital, it may be used only to close the losses, to continue the business when the work is not going well or to prevent unemployment and to take measures to mitigate the results. Otherwise it is not possible to use it in any way.

| | December 31,2022 | December 31,2021 |
|-------------------------------------|------------------|-------------------|
| Legal Reserves | 4.676.001 | 1.774.852 |

(All amounts are expressed in Turkish Lira ("TL"))****e-Previous Year Profits / Losses**

Retained earnings other than the net profit for the period and accumulated losses are shown in this item. The extraordinary reserves that are retained by the nature of their accumulated profit and are therefore not restricted, are also recognized as retained earnings.

| | December 31,2022 | December 31,2021 |
|-------------------------|-------------------------|-------------------------|
| Previous Years' Profits | 40.351.102 | 12.281.894 |

Dividend Distribution

The companies whose shares are traded in BIST are subject to the dividend requirement brought by the CMB as follows:

According to Article 19 of the Capital Markets Law No. 6362 entered into force on December 30, 2012 and the Communiqué on Dividends numbered II-19.1, which entered into force on 1 February 2014, the publicly-traded companies distribute profits in scope of the profit distribution policies to be determined by their general assembly, and as per the provisions of the relevant legislation. The Board may set different principles on the profit distribution policies of publicly traded companies on the basis of similar partnerships.

Unless reserve is set up as per TCC or the dividend determined for the shareholders under the main contract or under the dividend distribution policy, it is not possible to decide to distribute any other reserve fund, transfer the profit to the following year and distribute the dividend from the profit to the owners of bonus shares, the members of the board of directors, the employees of the partnership and the persons other than the shareholder.

As of the date of dividend distribution, it is distributed equally to all existing shares, regardless of their issuance and acquisition dates.

The distribution method and time of the profit that is decided to be distributed is decided by the general assembly upon the proposal of the board of directors. .. The Company may decide to distribute dividends in accordance with the Turkish Commercial Code and Capital Markets legislation. For this purpose, it may authorize the board of directors with the decision of the general assembly, limited to the relevant accounting period.

f- Repurchased Shares

A.Period Income Tax Liability

The Group is subject to corporation tax applicable in Turkey. Provision is made in the accompanying financial statements for estimated tax liabilities related to the Group 's operating results for the current period.

Corporation tax; It is applied to the tax base to be determined as a result of adding the expenses that are not accepted as deductible in accordance with the tax laws to the commercial income of the corporations, deducting the exceptions (such as the participation earnings exception) and deductions (such as the R&D discount) in the tax laws. Past years' losses deducted from the corporate tax base can be carried forward for a maximum of 5 years, to be deducted from the taxable profit to be generated in the coming years. However, the losses incurred cannot be deducted retrospectively from the profits of previous years. In addition, provisional tax is calculated and accrued at the corporate tax rate on a quarterly basis

According to the Corporate Tax Law No. 5520, the corporate tax and temporary tax rate was applied as 20% until January 1, 2018, and as 22% for the years 2018, 2019 and 2020 as of January 1, 2018. Starting from the declarations that must be submitted as of July 1, 2021, based on the Law on the Collection of Public Claims dated April 15, 2021 and numbered 7316 and Articles 11 and 14 of the Law on Amending Certain Laws, and to be effective as of January 1, 2021, the Corporate Tax rate has been set as 25% for the corporate earnings for the 2021 accounting period and 23% for the 2022 accounting period earnings.

With the 6th paragraph added to the 32nd article of the Corporate Tax Law with the Law No. 7256, the corporations belonging to 5 accounting periods, starting from the accounting period in which the shares of the corporations offered to the public at a rate of at least 20% are offered to the public for the first time, to be traded for the first time in the Borsa Istanbul Equity Market. The corporate tax rate is reduced by 2 points to their earnings.

The rate of 18% was used in the deferred tax calculation after the reduced corporate tax (2 points corporate tax deduction).

B. Deferred tax Asset and Liability

The Group accounts for the deferred tax assets and liabilities for the temporary timing discrepancies arising from the differences between the legal financial statements on which the tax is based and the financial tables which have been prepared in accordance with the Turkish Accounting Standards (TAS). The said differences usually originate from the fact that tax base amounts of some income and expense items have been presented in the different periods for the financial statements prepared according to the TAS, and the said differences are stated below.

VBT YAZILIM A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022

| Profit / loss per share | 2,94 | 1,31 |

VBT YAZILIM A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022
(All amounts are expressed in Turkish Lira ("TL"))****NOTE 44– FEATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS**

Main financial instruments of the group are bank credits, cash and short-term bank deposits. The main reason for using these instruments is to create finance for the activities of the company. The group also possesses the financial instruments such as trade receivables and trade payables arising directly from the activities. Risks associated with the instruments being used are foreign exchange risk, interest risk, credit risk and liquidity risk. The group management handles these risks as follows:

a) Capital risk management:

The objectives of the group in the management of the capital are to provide its shareholders with benefit and to maintain the optimum capital structure for the purpose of reducing capital cost and sustaining the activities of the group.

Capital costs of the group, as well as the risks associated with each type of capital are evaluated by the top management. Based on the assessments of the top management, capital structure is aimed to balance through borrowing new loans or payment of existing loans as well as dividend payments, issuance of new shares.

The group monitors equity capital by using the ratio of liability/total equity capital. This ratio is obtained by the dividing of net liability into total equity capital. Net liability is calculated by the deduction of cash and cash equivalents from the total amount of liability (includes credits and trade payables as shown in the balance sheet).

As of the period-ends, the ratios net liability/total capital is as follows:

| | December 31,2022 | December 31,2021 |
|---|-------------------------|-------------------------|
| Total Liabilities | 659.803.011 | 203.199.677 |
| Minus: Cash and Cash Equivalents | 236.681.036 | 224.819.836 |
| Net Liability | 423.121.975 | -21.620.159 |
| Total equity Capital | 225.166.707 | 139.382.751 |
| Ratio for Net Liability /Total Capital | 1,88 | (0,16) |

b) Loans and Receivables Risk Management:

Loan risk is a risk where a customer or other party cannot fulfil the requirements in the contract. Receivables risk, on the other hand, involves the possession of financial assets, the risk where other party is unable to fulfil the requirements of the contract, too. Loans and receivables risk of Partnership basically results from trade receivables. Group management offsets those risks by means of limiting the average risk for the other party (except for associative parties) presented at all agreements and getting guarantee if necessary.

Trade receivables are tackled taking into account the past experiences and current economic situation and, if required, shown as net in the balance sheet after the allocation of an appropriate amount of provision for bad debts by top management.

The Group applied the simplified approach specified in TFRS 9 to calculate the expected credit loss provision for trade receivables. This approach allows for the lifetime expected credit loss provision for all trade receivables. In order to measure expected credit losses, the Group has classified its trade receivables in terms of maturity. The expected credit loss ratio for trade receivables is calculated and the expected credit loss provision has been calculated by multiplying the determined rate and trade receivable sum by using past loan loss experiences.

VBT YAZILIM A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022**
(All amounts are expressed in Turkish Lira ("TL"))**d) Management of the Risks Due to Market and Foreign Exchange:**

The Group is not sensitive to foreign exchange risk due to the fact that a significant portion of the Group's sales are not indexed to foreign currency and foreign currency and some portion of its trade payables are foreign currency. The costs are determined in Turkish Lira and represent a foreign currency risk conversely. Therefore, currency risk is minimized.

Required price adjustments are made instantly through tracking price changes in the market and market conditions regularly.

There is no change with respect to the last year regarding the market risk undergone by the group in the current year or the way of dealing with the risks encountered or the way of measuring these risks.

Foreign asset and liability of the group, foreign exchange position sheet in terms of original and TL currencies as of December 31, 2022 and December 31, 2021 are as follows:

e)Interest Rate Risk Management and Interest Rate Sensitivity

Due its assets bringing interest or liabilities interest is paid for, the group is vulnerable to interest rate risk arising from interest rate changes. This risk is handled by means of balancing the amount and terms of assets and liabilities being sensitive to interest rate via some techniques within the balance sheet and using derivative instruments, if necessary.

Within this scope, great importance is attached to the fact that not only the maturities of receivables and payables but also interest renewal periods are similar. In order for the financial liabilities to be affected minimally from the interest rate fluctuations in the market, "fixed interest / variable interest", "short-term / long-term "and TL / foreign currency balance of these debts are structured both within itself and within the framework of the asset structure. Since interest rates of corporate loans will remain constant until maturity, no interest rate risk has been calculated in this period.

VBT YAZILIM A.Ş.**FOOTNOTES REGARDING CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2022
(All amounts are expressed in Turkish Lira ("TL"))****NOTE 45 - FINANCIAL INSTRUMENTS**

The Group does not have any financial intermediaries other than those explained in NOTE 8-Financial Investments.

NOTE 46-POST BALANCE SHEET EVENTS

VBT Yazılım A.Ş. has agreed with a Private Bank residing in Turkey for the renewal and additional services of the "Disaster Recovery Center Mainframe and Data Storage Systems". The work will be completed within 1 year with the services. The total value of the contract is 8.227.000 USD.
